Mr. Campbell assumes a brand-new suit because he had it come and now he has it re-tailored. In a moment of ecstatic joy over its possession he impulsively said in the presence of a Chap whose name will not here be exposed: "I've got a dandy lot of new tailoring!" And straightway the aforesaid Chap presented himself at the home of Mr. Campbell and told his wife that Theo, had sent him for his new suit. She knew Chapple and watched him carry away her husband's Sunday go-to-meeting's and she never knew any better until Theo, came home.

N. B.—Since the "Chap" hadn't skill enough to avoid arrest, his name is Tim Maher. Officers Purcell and Stockdale overhauled him near Georgetown, O., and lodged him in jail here Friday evening.

WE'RE FOR AMERICA & AMERICANS!

BRADLEY!

Kentucky's Own Son for President.

BRADLEY'S CURRENCY PLATFORM.

"I am opposed to the free and unlimited coinage of silver, believing it would destroy all National prosperity. The gold dollar is the best dollar, and I am in favor of making every other dollar equivalent to its value. I am the friend of silver, and believe it can best be protected by holding its issues in such bounds as will insure its parity with gold as a circulating medium."—W. O. BRADLEY.

REPUBLICAN CONVENTION.

The Republicans of Mason county are requested to meet in Convention at the Courthouse, Maysville, on April 18th, 1860,—Court Day, at 10 o'clock, p. m., for the purpose of selecting Delegates to the Congressional Convention of the Ninth District, to be held in Maysville on Tuesday, April 14th, at 10 o'clock, a. m., to the Democratic Convention to be held in the same place upon the adjournment of the Congressional Convention.

Also select Delegates to the State Convention to be held in Louisville April 18th, 1860. The District Convention is for the purpose of selecting two Delegates from the Ninth Congressional District to the National Republican Convention, to be held in Louisville. Louisburg Republican is respectfully invited.

D. P. Orr, Chairman.

The Democrats in one hundred townships and County Conventions in Missouri have endorsed the free coinage of silver at the ratio of 16 to 1.

The only free coinage measure likely to be adopted by the Republican National Convention will be the free and unlimited coinage of McKinley's tint at a ratio limited only by the capacity of the mints and the demands of the world.

At Cincinnati Monday one-fifth of all the real estate in Hamilton county will be sold for delinquent taxes. There are an evidence of "good old" Democrats good times for you." Never before were so many people unable to pay their taxes.

The Carlisle Mercury says Governor BRADLEY ought to have received Kentucky's unanimous vote. Verily, Brother Kentuckians, there are many things that ought to be that are not, and there are also many things that are not that ought to be.

The Kenton County delegation to the Sixth District Convention, although instructed by the County Convention to cast the county's 49 votes for Governor BRADLEY, delivered the goods to Major McKinley's managers. Who shall say now that Jim Jewell is not a sage?

MARY ELLEN EDWARDS, the six-hundred-pound woman who was sent to the Cincinnati Workhouse by the Police Judge, was too big for the establishment. She could not get into a cell, the beds were not strong enough to hold her, the chairs broke when she tried to sit down, and all she could do was to sit or lie on the floor. The Police Board got rid of her by letting her go.

EX-GOVERNOR BOIES of Iowa says if a sound money Democrat is nominated for President by the National Convention in Chicago, it is probable that another Convention of silver Democrats will be held very soon after to name a National ticket. And so all the "Harmony" with a huge H is not confined to the Republicans.

It will be fortunate indeed if the vehemence of the McKinleyites in Kentucky does not result in driving many from the support of the gallant Ohioan if he shall be nominated at St. Louis. Governor BRADLEY should have had the unanimous vote of Kentucky, and after he was out of the way, if such a condition resulted, the entire Kentucky delegation would have gone to McKinley. Just now there are so many "strained relations" that the outcome is uncertain.

Nursing fair competitors would be the rule rather than the exception, as unfortunately it is at present, if the ladies would keep the home pure and vigorous for the use of Avery's Sarson's, the only reliable poultice.

TALK OF LYING.

LEXINGTON, Ky., April 11.—Will somebody, who has been to the penitentiary for two years at this term of the circuit court, and who was confined to his bed when the prisoner was brought to the penitentiary, be granted a parole by Gov. Bradbury? It will be remembered that Noblesby stole a mule and sold it for \$12.50. Robert Hall, who is in the penitentiary at present for the same offense, will likely be paroled on Friday. Will he be allowed together when the mule was stolen. This is the first Garrard county man whom Gov. Bradley has pardoned.

ABE PAGE SENTENCED.

He is ordered over to the Mansfield Hand-cuff chain to stand trial.

HYDEN, Ky., April 11.—Abe Page, the 15-year-old boy who was convicted of the murder of Allen Lewis, has received a sentence of life imprisonment, and that as the father and elder brother were under indictment for the same charge and their cases still pending he would refrain from admiring any young man who had been brought from the jail handcuffed to a thick chain locked around his arms. The chain was then fastened around the neck of a little mountain pony on which he had been riding. After he had been fastened on the chain the deputy sheriff took the youthful prisoner over the road along which his victim had been hauled to the grave 27 days before. This was done the authorities claimed to teach the mountain boys who were inclined to look upon murderers as heroes.

SHUT OUT.

Louisville Cops Cut Both Ends to Political Organizations.

LOUISVILLE, Ky., April 11.—Chief of Police Taylor created a stampede among the police force by announcing that policemen can not belong long to political organizations.

The law, it is claimed, also applies to members of the fire department, who are prohibited under the rules of the department from belonging to any political society. There are said to be quite a number of firemen who belong to the A. P. A., and this, it is claimed, is clearly against the law.

The law of safety was Friday, said some action was to be taken, but Col. Telford said that the subject had not yet called to him.

Lawyers are to be called in to advise him.

DUN'S REPORT.

A Weekly Review of Business Throughout the Country.

Prices of Breadstuffs and Iron Products Have Risen Slightly.

Winter Wheat Damaged Considerably by Storms and Frosts in the West—Stocks Extremely Dull, Yet Railway Trade Is Heavy—Increased Failures.

New York, April 11.—R. G. Dun & Co. say Saturday in their weekly review of trade:

"Failures for the past week have been 201 in the United States against 307 last year, and 35 in Canada against 27 last year."

The volume of business has not, on the whole, increased nor have prices appreciated so much as since April 1, when the rate of increase in the United States was second in magnitude between that country and her rebellious colony in the West Indies. This proposal was made in a telegram of instructions to our minister at Madrid. Mr. Tracy, however, did not act upon it. No diplomatic dispatch of equal importance has left this capital since Secretary Olney's note to the British government on the Venezuelan boundary question was sent to London last summer.

It brings to a crisis the relations between the United States and Spain, which have been unsettled since the outbreak of the Cuban rebellion. The most striking explanation of the root of the matter is that demand for consumption is still below expectations.

The injury done to winter wheat by storms and frosts at the west would appear from reports of state agricultural bureaus, but the reports are not more gloomy than a year ago, and the quantity of wheat which has come from farms since August has been 163,781,594 bushels, against 139,777,450 to the same date last year.

Stocks have been extremely dull, and yet railroad traffic is heavy. Reports of earnings have not improved, the March statement covering particularly all the roads usually quoted, showing an increase of 4.8 per cent over last year, but a decrease of 1.3 compared with 1893, and is less satisfactory than the returns of January and February.

Domestic business reflected by clearing house exchanges is slightly better than last year. Foreign trade shows a decrease of nearly 10 per cent in exports for the month, while imports gained nearly 20 per cent in March the decrease was 14 per cent. The bill pool and other combinations have raised the prices of pig iron and steel, but as yet finished products have gained scarcely anything, nor have manufacturers for them increased. While purchases of pig iron to anticipate future wants have been heavy, actual consumption is but moderate. Minor metals are dull but well ahead at 3,600 on forced sales week.

Prices of boots and shoes don't change, though leather is lower. Hides are a little stronger at Chicago, receipts being small. Wool is weaker with sales for the week the smallest for three years. Prices had long been except for fine washed fleeces, and manufacturers are rapidly reducing production.

There is fair demand in the dress goods market, though it is less than not 4.0 per cent of the men's wear machinery is at work. There have also been cotton mills stopping or reducing time this week. Further reduction in shirting prints to the lowest point ever taken failed to increase demand noticeably.

CIVIL SERVICE.

A Favorable Report on an Amendment to the Present Law.

WASHINGTON, April 11.—The Merchants' Bar Iron Association of the United States is no more.

After a stormy session at the Wedderburn House, Friday night, the members unanimously decided that it would be impossible for them to ever come to an agreement, and the association was formally dissolved.

The death of the association will not affect its fact of becoming.

A band of rebels commanded by "Ingleto" and others entered the town of Bermia, province of Mitanza, and despite the heroic resistance of the inhabitants, sacked some stores and burned a few houses. The rebels numbered 600 and were well armed and well mounted.

Large numbers of rebels are coming near Camujuani, were attacked by 140 rebels, who used matches. A lieutenant and four volunteers were killed and many wounded.

The rebels threw dynamite bombs and fired explosive shells. The Spaniards lost a captain and four soldiers killed and one lieutenant and 23 soldiers wounded.

CATHODE RAYS.

A Special Application Made in Surgery at Lawrence, Kan.

LAWRENCE, Kan., April 11.—A special application of the Roentgen rays in surgery was made by Prof. Franklin's in which the patient was suspended in a frame.

Two surgeons from Western Kansas brought to Lawrence a young man who had had his leg fractured by falling from a horse in January last. The man had refused to knit and a physician

kept the calf swollen to twice its normal size, and he could not use the limb.

The injured man was laid on the table, and the large electrostatic plate was placed under the inflamed part. Above this was suspended one of Prof. Franklin's tubes in which the Roentgen rays were generated by a high voltage current.

The current was turned on and the plate exposed several minutes. When the plate was developed it showed that a section of the tibia or shin bone was broken. The surgeon, using an anesthetic, cut into the flesh and found that the X rays had truthfully reproduced the exact condition of the bone. A two-inch section of it was gone, and for that reason the bone could not knit.

AT LAST

President Cleveland Intercesses in Behalf of Down-Trodden Cuba—Crisis Coming.

CHICAGO, April 11.—A special dispatch to the Times-Herald from Washington says:

"At last President Cleveland has made to Spain a formal proposal that the United States become in mediation between that country and her rebellious colony in the West Indies. This proposal was made in a telegram of instructions to our minister at Madrid. Mr. Tracy, however, did not act upon it. No diplomatic dispatch of equal importance has left this capital since Secretary Olney's note to the British government on the Venezuelan boundary question was sent to London last summer.

Reports of earnings have not improved, the March statement covering particularly all the roads usually quoted, showing an increase of 4.8 per cent over last year, but a decrease of 1.3 compared with 1893, and is less satisfactory than the returns of January and February.

Domestic business reflected by clearing house exchanges is slightly better than last year. Foreign trade shows a decrease of nearly 10 per cent in exports for the month, while imports gained nearly 20 per cent in March the decrease was 14 per cent.

Prices of breadstuffs and iron products have risen slightly, but some other articles have fallen, and the root of the matter is that demand for consumption is still below expectations.

The injury done to winter wheat by storms and frosts at the west would appear from reports of state agricultural bureaus, but the reports are not more gloomy than a year ago, and the quantity of wheat which has come from farms since August has been 163,781,59

SOME DAY OR OTHER.

Time enough yet for the current to turn—
“Hope, who's there? He,” as philosophers
say; People know no way have money to tear.
Provided they don't quit the job in de-
spair.

Play right ahead and you'll bring 'em
your way—
Some day or other.

Facts grow on bushes for some, so it seems,
Others grow on trees, they're 'em, to climb
Early and late—but what if you're blue?
No use to worry and fret your blue.

Find right ahead and you'll bring 'em
to you—
Some day or other.

Love-making's easy for some, it appears.
But what if it isn't for you?
Guitar, banjo, fiddle, mandolin, piano,
You'll prop, and if you should get
fouled up, your piece over and she'll help you
through—
Some day or other.

Knew a man once who for twenty straight
years—
Courted a girl, but he hadn't the sand
To ask her to marry till finally she
asked him the what his meaning might
be,
What he knew that a woman, by watching
her hands, can catch the most bauliful admirer to
land—
Some day or other.

Nothing you want you can't get if you
plod—
Or learn—
Take the task with grim determination,
Trust right to it and never say die—
Bound to win it if you really care—
Some day or other.

IN A SPIDER'S PARLOR.

BY MAY LILLIAN DODDS.

MYTOTHI hadched for a week, causing loss of sleep and a bad temper. I am more cowardly than other men when it comes to mounting a dentist's chair, but you can't be sure I wouldn't go to the stick point that would give a great jump as if I contemplated saving a dentist's bill altogether; then quiet down, and I would clutch my mind about having it extracted.

The morning of October 13, after a night spent wallowing the floor with an un sympathetic stove-griddle to my face, I sat out early to get through to street at nine o'clock when I saw Dr. Tom Bradley at his office and secure the address of his dentist, for at that date I was a stranger in Washington.

I do not know how long, or where I learned, that I found myself in the heart of the city and had evidently been seen about. The houses were old-fashioned brick structures, dingy and faded, but a few retained an air of pretentiousness. The old indians never had a place to stare, as if to denote the plateau people that the stage of boarding houses had been reached. The corner house, alone, looked like a home.

At this point my observations met a check. I had been to the dentist and given a sharp pain to my nerves and the pain broke forth with renewed energy. "Leaven?" I cried, "if I could set eyes on a dentist's sign I'd put an end to this tooth." While I had been waiting a minute when you are regaining consciousness. Your fists are too strong."

He stepped into the reception-room; I could have sworn that I heard a key turn in the lock, rolled my gaze seeking who the room was to be. The door was creaked, was lighted only by a single skylight; the walls were a glistening white; the floor was tiled in immaculate white; in one corner a wood fire blazed in a tiny grate; in another stood a large iron trussing stand with a pipe and the trickling stream from a high-curved metal faucet, lay a pair of green oilskin gloves. Beside the grim-looking instruments of unfamiliar shape and size.

"Ye gods and little fishes? What did it all mean?" Why was I strapped to an operating table, within reach of all the appurtenances of a surgical operation? What occasion of extracting a tooth? While I had been trained in the hands of a conscientious stranger, I knew not what locality, in what was, to all intent, a prison, and now, bound helpless. My hair rose in radii— swift visions passed before me, telegraphic scene-heads.

"Mysteries disappearanea?" Dropped off sight."

I writhed in my fitters and screamed; but my voice died in my throat, for a small amount of mucus was expectorated from my mouth; firm, thick, and settled their tips on my gallbladder.

A farce bent over me, and I shrank before that penetrating, commanding gaze,

"Close your eyes and breathe naturally."

I wished to speak, to rebel, to cry out in piercing shrieks. Those eyes above me fixed my very soul in fetters of impotence. A sudden chill struck me. I was slipping, moving, sliding, from the grip of the hand, until I was rapidly, till my breath, snatched from me, strained away behind, like the banner of smoke from a locomotive.

My feet struck first, in an icy depth; I gathered all my strength in a mighty effort, but the hand held fast. A few clouds, two eyes like sunbursts, yet pierced my strength and through and sucked my will power up, as the sun draws nimbly vapors in long, shining spikes at sunset; all the while the ice grew, rising higher, higher up my helpless body.

"Close your eyes and sleep!" I did not hear the words, for my ears were filled with the freezing tide that swirled and swept me to the bottom of my brain.

The hands closed over me, and the other medium than the crude sense of hearing. Again my numbness, terrified will rallied to rebel against this insuperable force of every faculty: than any intellect. In one last effort to escape from the grip of the maniacal monomania of my past, but upon cycle of history and romance. In one illuminating flash imagination turned her seeright into the future; but the vivid revelations were too immeasurable for the mortal retina to catch

"Can I be of use to you?" he said, drawing a card from his case.

"Alexander Huron, M.D."

A twinge of twinge in my face in a moment, determined my answer.

"Sir, Dr. Huron, I will be glad of your services if you can attend to me at once before my courage fades."

He threw away his half-smoked cigar.

"I have no engagement for this hour."

you are suffering, so I will cut short my impulsive words."

"You are very kind," I replied, following him up the spotless marble steps. A policeman on the opposite corner was eyeing us with idle gaze; a vagrant dog shivered on the curb; otherwise the world was dead.

Dr. Huron led me to a pleasant room at the end of the hall, and leaving me, passed into an adjoining room. I walked about striving to retain my composure. The clock presently struck half-past twelve, with a clang that even the dead nerve was the man desired. I stood to the window, but it gave only a view of the blank wall of another house; moreover it was barred closely and heavily. "Children?" I commented.

No sound came from the next room except the dripping of water; I examined the book-strewn table; magazines, newspapers, medical works, a volume of Lavater with many slips of paper haphazardly pinned to its cover, a book on hypnotism laid open, faced down.

While I was turning the pages of a magazine, I heard close at hand the muffled clatter of eatery; then a step in the next room; the click of an adjustable chair; and lastly, a low, voice-like murmur: "She's coming to, to white me."

When I drew aside the portiere, I started, speechless. Dr. Huron had changed his smoking attire for a suit of grotesque lines which were decked out with ribbons, bows, and lace. He displayed his splendid proportions; his arms showed white and muscular above his bronzed hands; a baker's cap of linen surrounded his thick, silvery hair.

"You make elaborate preparations," I said. He did not reply, but an inexplicable smile flickered over his lips, a smile that suited him well.

I mounted the chair and he adjusted it; I marveled at the excitement that possessed him. He took a pipe, lit it, and smoked his cherries; his eyes were sparkling and lost their shifty light. He worked with a deftness and dispatch that won my confidence, but the sentinel never rebuked.

I smothered a groan: "Will you give me chloroform, doctor?"

He turned from me while he ran over the usual category of questions. I groaned again: "Yes, I know all that. It'll all right, I have no heart trouble, but I've had heart trouble if this inquisition goes on. Cut this, can't you?"

"Cuthump, my dear sir, you shall have your heart trouble if you let me do this," the doctor replied. "Loosen your collar, take a deep and settle yourself comfortably."

I dropped my head and closed my eyes. He busked himself adjusting the chair. Suddenly I started—he had slipped from the chair and was leaning over me, and was tightening the other.

"What in thunder do you mean?" I cried, trying to rise. He pushed me back, gently but firmly, and looking straight into my eyes, said: "You are a child, a child, a child, a manning when you are regaining consciousness. Your fists are too strong."

He stepped into the reception-room; I could have sworn that I heard a key turn in the lock, rolled my gaze seeking who the room was to be. brought but reeking glare. With a final, bright three my lamp was extinguished, and to those points of light above me; then the inky cloud rolled away; the devouring tide swept a freezing wave over my brow, and I knew no more.

I say I knew no more; but the mind takes no cognizance of unconsciousness, has only data by which to measure blankness. We measure sleep relatively, by a comparison of the last impression before losing consciousness and after regaining it. Wilson says that the superiority of the household accomplishments, in fact that a great many girls of the present era are really ignorant of simple details of housekeeping, comes from the lack of knowledge of their mothers. It is not so much the fault of our girls as of their mothers. It has even become the fashion in recent years to condemn young women for the want of accomplishment of their household accomplishments. A man's health is in the rope by which he is suspended. If he can keep his health he can go on prospering. Yet there is one very thing he neglects more than anything else. It is easier to keep health than it is to regain it. When a man feels himself failing down, when he is ready to give up the ghost, when he must cast a hate, the strands of his rope are parting rapidly. Dr. Pirson's Golden Medical Discovery has helped thousands of men in this dire emergency. It gives them new life, new strength, it forces out impurities and kills germs. It doesn't make any difference what name you call your trouble by—*disseminated disease*, *chronic rheumatism*, *old age*, *Golden Medical Discovery* will cure it absolutely. None of these diseases can retain hold when there is full of rich, pure blood.

MAJOR W. W. ROBBINS.

Framer of the Indiana Military Bill Made Well by Paine's Celery Compound.

Major Robbins of the Second Indiana Guards, and a member of General McKee's staff and President of Camp Gray, has been for two years one of the most influential members of the Indiana Legislature and the author of the famous Indiana Military Law of 1889.

Major Robbins was a very sick man up to the time of taking Paine's Celery Compound.

Is proof of what remarkable remedy can do to make a sick person strong and well. Major Robbins' letter from Indianapolis best tells its own straightforward story:

"I was troubled with a torpid liver condition and the accompanying sal low complexion, while my entire nervous system was entirely deranged, and I was greatly reduced in flesh. While in this condition I was taken down with a very severe attack of the grip, and was, for a long time, confined to the house and my bed.

"I resorted to various medicines and tonics, and under their temporary influence made several attempts to resume my business of traveling about in the interests of A. Steffen, cigar manufacturer of this city, but relapse succeeded me. I did not only was obliged to abandon my business, but growing gradually worse, became apprehensive of the early invigorated.

That is why all over the country today Paine's Celery Compound is being taken by the advice of skilled physicians. It is the one remedy that relieves that tired feeling means. They know that debility today often results in nervous prostration tomorrow, unless the tired system is quickly invigorated.

That is the juncture, my mother-in-law who had used your remedy with gratifying results, prevailed upon me to commence taking Paine's Celery Compound, and it gives me great pleasure to state

MASON FISCAL COURT.

Conclusion of the April Term—Whaling Batch of Bills.

The Fiscal Court concluded its April Term Friday.

The sum of \$25, in the hands of Leon Patterson, was appropriated for Jasper.

The same sum was placed in the hands of Squire Williams for the benefit of the widow of John Rose.

It was ordered that hereafter all claims against the county must be presented to the County Clerk or County Attorney one week previous to the meeting of the Court, or they will not be considered at that term.

It was ordered that the salary of \$900 paid to the Superintendent of Schools include his office rent.

The sum of \$34 was placed in the hands of Sheriff Jefferson to pay room rent for election of 1965.

A balance of \$3,000 in the Turnpike and Bridge Fund was transferred to the General Fund.

An allowance was made to pay the officers of election, with \$1.25 extra for each Sheriff of the election for care of the booths.

A note held by the State National Bank for \$4,800.04 was ordered paid. This was money borrowed to cash the claims allowed at the October term of the Court to qualify and secure bonds.

It is easier to keep health than it is to regain it. Judge Parker of Fort Smith has sentenced 107 men to death since he sat on the bench.

East of Australia and North of New Zealand is the Republic of New Zealand, an island with an area of about eight thousand square miles. Its inhabitants number 550,000, of whom forty are white and 510 natives. It was once a colony of France, but in 1870 it was declared independent, and its people at once adopted a republican constitution. It is governed by a president and a council of eight, elected by the people—black and white, men and women. Only white males hold office. The President elected recently is R. D. Polk, a native of Tennessee, and a relative of James K. Polk, one of the Presidents of our own Republic.

During the winter of 1893, F. M. Martin of Long Reach, West Va., contracted a severe cold which left him with a cough. In speaking of how he cured it he says: "I took several doses of Paine's Celery Compound and I found it to be a strong syrup but found it would I thought be good for Chamberlain's Cough Remedy, which relieved me almost instantly, and in a short time brought about a complete cure." When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. It has been in the market for over twenty years and constantly grown in favor and popularity. For sale at 25 and 50 cents per bottle by J. Jas. Wood, Druggist.
